```
<apex:page controller="StudentController">
  <apex:form >
    <!-- Form for creating a new student -->
    <apex:pageBlock title="Create New Student">
      <apex:pageBlockSection columns="2">
        <apex:inputField value="{!newStudent.Name}" label="Student Name"/>
        <apex:inputField value="{!newStudent.age__c}" label="Age"/>
        <apex:inputField value="{!newStudent.grade__c}" label="Grade"/>
      </apex:pageBlockSection>
      <!-- Submit button to save the student -->
      <apex:commandButton value="Save Student" action="{!saveStudent}"/>
    </apex:pageBlock>

    <!-- Display existing students -->
    <apex:pageBlock title="Existing Students">
      <apex:pageBlockTable value="{!students}" var="stu">
        <apex:column value="{!stu.Name}" headerValue="Student Name"/>
        <apex:column value="{!stu.age__c}" headerValue="Age"/>
        <apex:column value="{!stu.grade__c}" headerValue="Grade"/>
        <apex:column >
          <!-- Button to update student -->
          <apex:commandButton value="Update" action="{!updateStudent}" />
        </apex:column>
      </apex:pageBlockTable>
    </apex:pageBlock>
  </apex:form>
</apex:page>

public/////////

public class StudentController {
  // List to hold student records
  public List<Student__c> students { get; set; }
  public Student__c newStudent { get; set; }

  // Constructor to initialize the students list and new student record
  public StudentController() {
    students = [SELECT Id, Name, Age__c, Grade__c FROM Student__c LIMIT 10]; // Fetches students from Salesforce
    newStudent = new Student__c(); // Empty student record for input form
  }

  // Method to save a new student
  public PageReference saveStudent() {
    insert newStudent; // Inserts the new student record into Salesforce
    students.add(newStudent); // Add the new student to the list of students
    newStudent = new Student__c(); // Reset the form for the next input
    return null; // Returns to the same page
  }

  // Method to update an existing student's details
  public PageReference updateStudent() {
    update students; // Updates the list of students in Salesforce
    return null;
  }
}
```
